The planner we have provided is based on the above format. Please note that this is a generalised layout and can be changed to suit your needs. Other elements may come into play such as video/slideshow presentations, entertainer's interaction, guests that may perform a song, etc.

In order to reduce any stress, we recommend that an "approximate" time be added to each item instead of absolute times. We say "approximate" because it is quite common to experience delays at a Wedding Reception which may throw the timetable off schedule.

If there are slide shows, videos, people performing songs, or anything not listed, please add them in chronological order to the "**(additional)**" rows.
